INTERNATIONAL MICROORGANISM DAY

MICROORGANISMS AT THE GARDEN

Exhibitions

The Magic and Challenges of Marine Bacteria • Bacteria Gellan Gums • Pathogenic Yeasts • Fight Against Malaria • Animal Models • Yeasts and Wine • Yeasts and Craft Beer • Fermented Foods • Agrofood Wastes Valorization • Oil Bioremediation • “One health” - people, animals, and environment •

Presentations

Room Q01 - Next to the Chemistry Building Garden

1 10H00 Aquatic microorganisms: new challenges
Mário Freire, LAIST - Laboratório de Águas do IST

2 10H20 The role of marine bacteria in zero-waste movement: from food waste to bioplastics
Rúben Silva, iBB

3 10H40 Food gums produced by bacteria
Tiago Pita, iBB

4 11H00 Infections caused by pathogenic yeasts: the enemy within
Mafalda Cavalheiro, iBB

5 11H20 Polymers to fight malaria
Guilherme Cardoso, iBB/IHMT

6 11H40 Models of infection
Andreia Pimenta, iBB

7 12H00 From the microscope to the wineglass
Maria João Tavares, iBB

8 13H40 How to make artisanal beer?
Nuno Bourbon, iBB

Artisanal Beer Tasting and Socializing

9 15H30 Not all microbes are enemies... Some produce delicious food
Rafaela Santos, ISA

10 15H50 Yeast transformation of agrofood wastes into added-value products
Luis C. Martins, iBB

11 16H10 Oil Bioremediation
Carlos Rodrigues, iBB

12 16H30 Biosurveillance: the role of wild animals in the “one-health” concept
Miguel Grilo, FMV

13 16H50 Informatics and microorganisms: unlikely friends?
Miguel Antunes, iBB

WHEN?

17 September, 2019
